Education

12/2020 — 06/2024
Mangaluru, India

Computer Science | B E Canara Engineering College

- Security, privacy and development of applications.
 - Analysis, Design and management of enterprise systems.
 - Languages studies: Java, C/C++, Python, SQL
- <https://www.canaraengineering.in/>

05/2018 — 05/2020
Amrutha, India

Science | PUC Government PU College

- Fundamentals of Science
- Labs and practical approach
- Subjects studied: PCMB

05/2016 — 03/2018
Konanduru, India

Social Stuides | SSLC National high school

- Introduction to Science
- Subjects studies: Science, Social studies

Job-related skills

- Outstanding Software/Network troubleshooting and problem solving skills developed while working as Java developer.
- Solid knowledge of the System Infrastructure and the Network devices of an Enterprise (proxy, firewall, Kubernetes, router, domains, ISO/OSI model and various protocols DNS...).
- Good knowledge of the Virtualization software as HyperV.
- Usage of the popular web development toolkits such as React JS/Native, NodeJS, Express JS, Django and much more.
- Design, manage, and monitor applications built using Blockchain, React, HTML, CSS, JavaScript.
- Powershell usage for the scripting of various activity.
- Perfect knowledge of the Computer's Hardware / Ability to build one from scratch.
- Excellent mastery of the Windows and Linux (Ubuntu) O.S.
- Usage of the Remote Support software as (Microservices and Vercel for app deployment).
- Good knowledge of the following programming language: Java (used for developing mobile apps), C, React, Python.
- Software used for development: Android Studio, VS code, Google Developers Console, Docker.

Organisational / Communication skills

- Ability to plan, schedule and handle the work-load.
- Team work, communicate effectively and work together to achieve a common goal.
- I acquired these skills in the professional environment thanks to the continued relationship with users / technical teams from other areas.

Skills

LANGUAGES

Hindi
Native

English
Professional

OPERATING SYSTEM

Proficient in Java, Python

Efficient in C, C++

Trained in React, SQL,
Express

Additional Project

02/2022 — 04/2023
Mangaluru, India

Full stack developer Resto

I played a major role in the development of this restaurant application, taking on the responsibility of guiding a dynamic team of developers to success, including overseeing project management.

- User experience feedbacks were beyond great
- Used tools like Node JS, HTML, CSS, JavaScript
